

ProSolutions

Quality. Results. Delivered.

Organizations have partnered with us for more than 40 years to deliver cost-effective solutions, generating bottom-line results, including:

- **99.7% Order Accuracy** • **98.4% On-Time Shipping**

Services

Our core services are executed by more than 300 highly trained employees working 3 shifts and 6 days per week in our 120,000 square foot facility.

Custom Displays: Point-of-Purchase (POP) displays, end caps

Packaging: Automated & manual

Paper Converting: Flat pack sheeting, bulk & counted, folding, assembly

Machine Shop: Light industrial

Target Markets

While our services work in virtually all industries, we find our best partners are from the following target markets.

Consumer Packaged Goods (CPG): Paper, food, electronics, pharmaceuticals, etc.

Industrial Goods: Supplies, components, parts, packaging, class "C" commodities, etc.

Rework: Sorting, refurbishing, recycling, re-labeling, etc.

Benefits

We assign a **professional account manager** to every customer.

This collaborative approach drives out **unnecessary material, labor and handling costs.**

The result is a packaging solution which is **on time, defect-free,** and creates the **greatest total value** for customers.

"They have been proactive to determine solutions for us. They truly are a partner in our business and supply chain. I only hear about how they proactively work with us to solve problems and provide us — and our customers — with the quality and delivery that is expected."

—Rod Roovers, Brand Manager, Endries International
